

2021 Mystery Quilt - Step 4

By Kathleen Tracy

This month, I'll show you how to put all of the pieces of the Mystery together. Here's what you should have made so far: **four sets** of 8 half-square triangles, **four sets** of four patches, and **four sets** of scrappy four patches.

Directions

1. Work on one set of half-square triangles, four patches and scrappy four patches at a time. Using the first set, make two blocks from these pieces as shown.

Make 2 blocks.

2. Now, make the same block using the same half-square triangle and four patches but with the remaining two different scrappy four patches. Make two blocks.

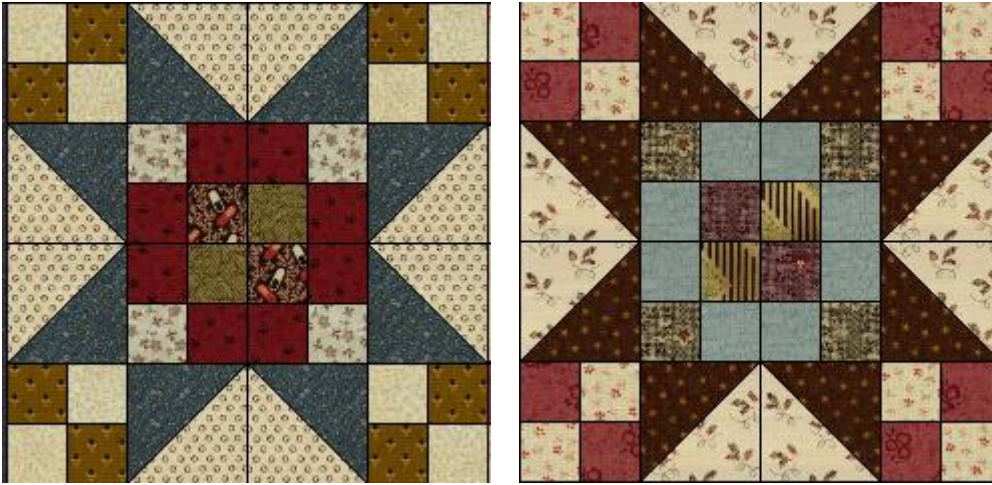

Make 2 blocks with a different scrappy four patch unit.

3. You will have a total of four blocks. Put these together to make one large scrappy star block as shown. Trim to $8\frac{1}{2}$ " x $8\frac{1}{2}$ "

4. Repeat steps 1 - 3 with the remaining sets of HSTs, four patches and scrappy four patches to make 3 more scrappy star blocks.

5. Put the four star blocks together to make the quilt top. The top should measure 16 1/2" x 16 1/2".

Ta-da! I am calling this quilt Star Gazing.

Next month, we'll add 2 borders and complete the quilt.
